Instructions for Clenpiq

DOSE 1	
At 6 pm the evening before procedure	• Prepare and drink as follows: - Drink bottle "#1" - Then drink at least 5 cups (8 oz each) of clear liquids • If you experience nausea, bloating, or vomiting, drink slower or with ice.
Remainder of evening	• Drink at least 5 cups (8 oz each) of clear liquids (see page 1)

DOSE 2	
6 hours before your procedure **(unless instructed otherwise by your doctor)**	• Drink bottle "#2" • Drink at least 4 cups (8 oz each) of clear liquids • Up until 3 hours before your procedure: - Casually drink clear liquids - Take your medications, as approved by your NYGA physician **NO FOOD OR DRINK (INCLUDING WATER) WITHIN 3 HOURS OF PROCEDURE**

Additional Information
• This prep often works within 30 minutes but may take 4-6 hours. This prep will cause multiple bowel movements. The goal is for your colon to be empty when you come for your procedure. • **Arrive 1 hour early.** Arriving late could lead to your procedure being delayed or canceled. • Upon arrival, females of childbearing age are legally required to provide a **urine sample for a pregnancy test.** • After your procedure you must not drive for the rest of the day. If you are over 75 someone must escort you home. • **Need to cancel your procedure? Please notify our office as soon as possible. You will be charged a cancellation fee of $250 if the procedure is not cancelled at least 2 business days before your scheduled procedure time.**

Procedure Billing Information

Appointment Details

You are scheduled for a procedure, such as a colonoscopy, upper endoscopy (EGD), or HemWell™, at one of our affiliated ambulatory endoscopy centers. Please check your NYGA patient portal to confirm the specific location, date, and time of your appointment.

Billing Details

A procedure typically involves several fees that are payable to various parties, including the endoscopy center, New York Gastroenterology Associates (NYGA), and the pathology lab. These fees include:

Fee	Charged By
Facility fee	Endoscopy center
Anesthesia fee	Endoscopy center
Professional fee	NYGA
Pathology fee (if applicable)	Pathology lab (which may be NYGA)

Out-of-Pocket Costs

Depending on your insurance, you may be responsible for out-of-pocket costs (e.g., copay, deductible, co-insurance) related to the above fees, as follows:

- **Estimated out-of-pocket facility and anesthesia fees** payable to the endoscopy center are due on the day of your appointment. You will receive the estimate via call or text a few days before your procedure to ensure it reflects your remaining deductible and current policy details. If you do not receive this message, the estimate will be provided at check-in. The endoscopy center accepts cash, checks, and credit cards.

- **Out-of-pocket costs related to professional and pathology fees** will be determined after the facility and anesthesia fees have been applied to your deductible and communicated to you separately.

Important note on screening colonoscopies: While many insurers cover screening colonoscopies, you may have additional out-of-pocket costs if your procedure is reclassified as surveillance or diagnostic based on the findings.
